Education

NED UNIVERSITY OF ENGINEERING AND TECHNOLOGY Karachi, Pakistan
Bachelor of Science in Computer Science **2024 - Present**

DEHLI GOVT. COLLEGE Karachi, Pakistan
Pre-Engineering **2022 - 2024**

Professional Experience

EMU INSTRUCTIONAL RESEARCH INITIATIVE Karachi, Pakistan
Educational research initiative focused on advancing data-driven instructional strategies. *Full-Stack AI Developer (Collaborative Project)*

Full-Stack AI Developer (Collaborative Project) **October 2025 – Present**

- Developed an AI-powered web platform for faculty self-assessment and student engagement prediction, optimizing user interactions across multiple analytical modules.
- Built scalable and engineered interactive survey mechanics to capture student data, feeding it directly into agentic AI models based on established academic research papers.

Academic Experience

AI STUDENT ENGAGEMENT PLATFORM (SEPICP) Karachi, Pakistan
An AI-driven faculty self-assessment and student engagement prediction web application.

Full-Stack Developer **October 2025 – Present**

- Engineered an end-to-end web platform using **React.js**, **Django**, and **MySQL** to streamline instructional data collection and predict student classroom engagement levels.
- Integrated **Agentic AI** workflows utilizing Large Language Models (LLMs) to automatically cross-reference student surveys with research papers, delivering tailored pedagogical suggestions to faculty.

DATA - POM QUALITY Karachi, Pakistan
An internal analytical data application designed to monitor and process quality metrics.

Frontend Co-Lead & Module Developer **June 2025 – Present**

- Spearheading frontend module architecture, managing cross-functional integration to ensure seamless data flow and component alignment between backend APIs and UI layouts..
- Directed technical transition into the processing pipeline by engineering specialized **Python** modules to optimize data handling and quality evaluation scripts.

SMART EVENT & TICKET MANAGEMENT SYSTEM Karachi, Pakistan
A full-stack enterprise ticket management platform facilitating secure, multi-tier user permissions.

Backend & Database Developer **January 2026 – May 2026**

- Constructed a robust enterprise application using **Node.js/Express**, **React**, and an **Oracle XE** relational database to handle concurrent ticket transactions and inventory updates.
- Programmed database schemas for seating arrangements, tiered pricing tiers, and real-time venue availability mapping, reducing data redundancy.

ATS RESUME BUILDER Karachi, Pakistan
An automated, editable document assembly application designed around Applicant Tracking System constraints.

Solo Developer **April 2026 – June 2026**

- Created a highly structured resume builder utilizing **TypeScript** and **React** for safe component state handling and reactive form rendering.
- Connected **Supabase** for secure backend data storage and user sessions, integrating an export pipeline that converts live editable web forms into standardized, ATS-friendly Word documents.

Extracurricular & Volunteer Experience

NED UNIVERSITY SCHOLARS GROUPS Karachi, Pakistan

- **Graduate Fundings Group (Member):** Conducted target research on global academic grants and institutional funding opportunities.
- **Event Management Group (Member):** Coordinated operational logistics and student registration workflows for campus-wide technical events.
- **Graphics Group (Member):** Developed visual identity and promotional assets for departmental projects during Semester 3.

Honors and Awards

ACADEMIC SCHOLARSHIPS

- Received full merit-based academic scholarship from NED SCHOLARS **2024 - Present**

Certifications and Online Courses

ONLINE COURSES

- AI For Everyone – DeepLearning.AI **April 2025**
- HTML and CSS in depth – Meta **March 2025**
- SQL: A Practical Introduction for Querying Databases – IBM **February 2025**
- Certified Python Developer – Industry Certification **January 2025**
- MERN Stack Deveoper **December 2025**

Additional

- *Technical Skills:* MERN Stack (MongoDB, Express.js, React, Node.js), Django, Python, TypeScript, Oracle XE, MySQL, Supabase, Agentic AI, Data Science foundations.
- *Interests:* Human Behavior analysis, Exploring technologies, Cooking, Cycling, Yoga.
- *Language:* English (Professional), Urdu (Native), German (A1/A2 Proficiency).
